Review and coordination meeting related to the 24×7 Water Supply Scheme and ongoing field implementation activities under the Karnataka Sustainable Rural Water Supply Programme (KSRWSP).

DTSU Viiavanadara

Official Review Meeting :

formal review session conducted in a conference hall.

Senior officers and officials are seated at the front desk, while staff members and field consultants are attending the meeting.

DTSU Team addressing the participants providing instructions, progress updates, and targets related to water supply scheme execution.

O&M management, performance review, data submission, and monitoring of 24×7 scheme progress in different Gram Panchayats.

Technical Discussion:

Officials are briefing field staff about documentation requirements, site inspection schedules, and coordination with Gram Panchayats. Participants include PDOs, engineers, and technical consultants, discussing scheme status, water quality testing, connection verification and digital reporting through the Panchatantra 2.0 portal.

The overall objective of these sessions:

Review progress of 24×7 water supply scheme implementation.

Discuss operational challenges faced in field execution.

Guide field functionaries on reporting formats, O&M planning, and sustainability strategies.

Strengthen coordination between administrative, technical, and field teams.

Outcome and Action Points:

Conduct detailed field inspections and submit reports on supply performance.

Identify technical gaps and address operational challenges.

Strengthen O&M mechanisms for long-term functionality.

Ensure transparency and efficiency in data management and fund utilization.

Improve community engagement and awareness regarding 24×7 water supply benefits.

Depict Review And Planning Meetings Conducted At Taluk And Office Levels To Monitor And Guide The Implementation Of 24×7 Water Supply Schemes Under KSRWSP. Officials Discussed Field Progress, Operational Issues, And Future Action Plans To Ensure Sustainable And Efficient Rural Water Delivery.

Training programme and field visit conducted under the Karnataka Sustainable Rural Water Supply Programme (KSRWSP) by the State Team Leader and district officials in Vijayanagara district.

Official training and review session held at the Vijayanagara Zilla Panchayat Conference Hall on 24th July 2025.

The session was led by the State Team Leader (KSRWSP) along with Zilla Panchayat officers, RDW&SD engineers, and District Technical Support Unit (DTSU) members.

Topics covering: Objectives and framework of KSRWSP, 24×7 Water Supply Scheme implementation guidelines, Operation & Maintenance (O&M) management, Sustainability and community participation, and Monitoring and reporting procedures. training aimed to enhance the technical and administrative capacity of engineers, consultants, and Gram Panchayat officials to ensure effective and sustainable scheme execution.

Large number of participants attended, reflecting the district-level commitment and awareness for improving rural water supply systems.

State Team Leader and district officials conducting field inspections at a 24×7 Water Supply Scheme site.

visit includes inspection of Overhead Tanks (OHTs), distribution pipelines, and public tap points in nearby villages. Team interacted with local engineers, GP members, and community representatives, discussing aspects like: Water supply duration and pressure consistency, Functionality of the infrastructure, Operation and maintenance arrangements, and Beneficiary satisfaction and feedback.

Technical details displayed on the project boards were reviewed to verify project specifications and funding details.

Overall field engagement helps ensure transparency, quality assurance, and hands-on guidance from the state team.

And build capacity among district and local staff for effective project implementation. To monitor field-level progress and assess the operational status of 24×7 supply systems. To strengthen coordination between State, District, and Gram Panchayat teams.

Comprehensive KSRWSP capacity-building and field monitoring exercise led by the state team leader in Vijayanagara district. The programme combined classroom training, field inspection, and team interaction to ensure efficient, transparent, and sustainable implementation of 24×7 water supply schemes across rural areas.
